THE EDUCATION FOUNDATION GOLF OUTING

Support a great cause while improving your handicap, getting some sun, and mingling with colleagues! Join us for a day on the links in support of the SEaNY Education Foundation.

Proceeds from the golf outing provide scholarships for students who are chosen by that year's Honorary SEaNY Member. This past year, scholarships were awarded to Zane Amray and Jorge A Martinez Ariza.

The Education Foundation also provides scholarships to high school seniors from the Urban Assembly School for Design and Construction to support them as they go on to represent our industry and become leaders in promoting our profession. Last year's scholarship winners were Gerard Renodo and Henry Long.

OUR MISSION

We started this event 19 years ago with a goal of encouraging young people to enter our profession by supporting area college and university students studying structural engineering. Since then, we have been able to expand our goals thanks to your generosity. We also award scholarships to graduating high school students from the Urban Assembly School for Design and Construction and support the Center for Architecture Foundation. We have distributed over \$290,000 to these great causes so far.

With greater demands on our aging infrastructure, the need for bright young structural engineers is more critical than ever. Please join us in helping students and supporting the field of engineering all while having a great time!

The SEaNY Education Foundation is a 501(c)3 nonprofit organization.
