

## 2021 SEAoNY YOUNG ENGINEER OF THE YEAR AWARD

### CALL FOR ENTRIES

The Structural Engineers Association of New York (SEAoNY) announces the Call for Entries for the 2021 SEAoNY Young Engineer of the Year Award.

In 2021, SEAoNY will highlight an engineer under the age of 36 who represent top rising engineer in the structural engineering industry by giving back to their industry and communities. The emphasis of this award is to recognize a Young Engineer that is providing a benefit to the industry, firms, and communities.

### ELIGIBILITY

You can nominate anyone who works at any level of the Structural Engineering industry who has had an impact in their respective fields or within their company, who exhibit qualities such as leadership, career progress, community involvement and creating landmark projects. You can nominate an employee of your firm, or someone who works at another firm. You can also nominate yourself (the nominator isn't made public). Independent juries of industry leaders of SEAoNY will judge the nominees based on the candidate's industry experience, leadership skills and community service. The awards will be presented during the Virtual EiSE Awards Presentation Ceremony on July 29th, 2021. The following are additional eligibility requirements:

- The nominee must be based in an office or location within the State of NY or NYC Tri-state Area.
- They must be UNDER 36 years of age as of January 1, 2021
- They should exhibit qualities expressed in the Young Engineer of the Year criteria: industry experience, leadership and community service.
- There is no limit to the number of entries each firm or person can submit, and there is no entry fee.

### 2021 SEAoNY YOUNG MEMBER GROUP

The 2021 Young Engineer of the Year Award is coordinated through SEAoNY's Young Member Group. Send any questions via email to: [SEAoNYYM@gmail.com](mailto:SEAoNYYM@gmail.com).

# 2021 SEAoNY EXCELLENCE IN STRUCTURAL ENGINEERING AWARDS

## ENTRY FORM

**Young Engineer Name :** \_\_\_\_\_

Please fill out the following 3 sections, with a maximum of 300 words per section. Each section is weighted equally.

### **Industry Experience and Education**

Provide a brief background for your education and industry experience. What projects have you worked on and what was your role? Describe a project that was impactful on your career. Discuss any career achievements as a structural engineer.

### **Professional & Leadership Development**

What events have you participated in over the past year that contributed to your professional development? What actions have you taken to improve your engineering and/or leadership skills?

### **Community Service & Involvement**

In what ways have you contributed to the engineering community over the past year? Describe any volunteer work or service projects you participated in.
